Dear Tony:

This letter documents our business relationship. You completed the terms of the agreement completely and went far beyond my expectations.

Functioning as my Director of Marketing and Business Development, you quickly became an integrated member of the Company with most employees unaware of your contractor status. From my perspective, the highlights of your tenure included:

- Creation of the Marketing Business Plan
- Rapid Leadership of all Marketing, Creative and Web-based Initiatives
- Building Close Working Relationships with All OHS Personnel
- Product Planning and Launch Leadership
- Creation of Telemarketing and E-Commerce Initiatives
- Conference Speaking
- Collateral Materials Overhaul

I couldn't have imagined a more perfect fit and especially appreciated your abilities to work "independently" while I was focused on other Company matters. Please feel free to distribute this letter and I wish you all the best in your future endeavors.

With Warm Regards,

John Indrigo
